

# Alberni Kids' Place

4457 Gertrude Street 250 720-0373

Our **Emergent Learning Curriculum** offers a non-pressured but structured program where:

AKP is a team of fully licensed **Teachers - Registered Early Childhood Educators**. We work closely with **PacificCARE** as well as accepting practicum students locally and abroad.

AKP offers a variety of programs:

## Morning **EARLY LEARNING**

Class  
9am-11:30am

## Mid-Day **EARLY LEARNING**

Class  
9am-3pm

We also offer an Extended CHILDCARE Component before and after Early Learning

**"PLAY comes FIRST and LEARNING comes NATURALLY"**

We are an *Early Learning Facility* with both morning and mid-day classes coupled with the extended day component for all our students by providing *Extended Childcare Options*.

Alberni Kids' Place provides a positive learning and caring environment for children through play experiences and the guidance of qualified and trained staff.

We offer care for children **18 months to school age**, 6 days a week,  
**Monday to Saturday**  
**7:30am - 5:15pm.**

AKP facilitates the healthy development of all areas of the whole child. These include: independence and self help skills, positive social skills, healthy emotional development, as well as strong physical and intellectual abilities.

We believe that programming is a process of learning objectives and strategies based on the observation of learning needs, planning activities and supporting children as they play through each learning opportunity.
